

## BRN4D Discussion Board Tip

If you are having any difficulty using the Discussion Board, i.e. blank page when you try to reply, here are some possible causes:

- Your computer is using an older version of Windows, like XP.
- Your Windows Updates are not current.
- Your browser, particularly Internet Explorer, needs to be updated to current version.

**Quickest & Easiest Remedy** is to use the newest version of Google Chrome browser. It's free and you can download it here: [Download Chrome](#)
